THE ENVIRONMENT

Sustainability. Responsibility. Respecting our planet.

Coldwater Creek was founded in 1984, nestled away in the spectacular splendor of the great Northwest, conjuring with its very name a place of peaceful, natural beauty. In keeping with this heritage of respect for our planet, we are proud to comply with the Program for the Endorsement of Forest Certification (PEFC). The PEFC is the internationally respected nonprofit/nongovernmental organization dedicated to promoting sustainable forest management through independent third-party certification.

The PEFC logo on our catalogs is your assurance that the paper we select for our printed materials comes solely from forests that are sustainably managed, creating more trees and saving animals, while preserving the longevity and biodiversity of our timberlands.

Leave the world a better place than you found it.
