

Week of 3/15 Organic and Internal Posts

ORGANIC POST – SCHEDULE/FIND PCP

When it comes to feeling your best, your Primary Care Physician (PCP) is a trusted partner who can help you stay on track – especially when it comes to important things like regular physicals and routine cancer screenings. Talk to your doctor about your health risks and recommended screenings or [find a Beacon PCP](#) today!

ORGANIC POST – GI DOCS

Just as regular physicals are important to overall health, routine screenings such as colonoscopies can detect cancer before you even experience symptoms. Early detection leads to early treatment – and that can save your life. From assessing your risk to screenings to diagnosis and treatment, our expert gastroenterology team is here for you every step of the way. [Request an appointment today.](#)

INTERNAL WORKPLACE POST – CAMPAIGN LANDING PAGE

We're on a mission! To spread the word about colon cancer prevention. Check out our Colon Cancer Screening Campaign and remember that colon cancer can happen to anyone. Know your risk, stay on top of your health, and don't put off your routine colonoscopy screening. It could save your life! [Learn More](#)

INTERNAL WORKPLACE POST – GI DOCS
