Flexible payment solutions

Tuition payment plans give families more control.

The Business Office Suite's tuition payment plans provide parents with a choice between making a one-time payment (lump sum) or spreading out payments, interest-free, using a monthly plan. Parents can also automatically schedule payments to make withdrawals from their credit card or bank accounts, putting an end to paper statements and delinquent accounts, and making it easier for you to manage billing and cash flow. Sallie Mae can also process statements if parents want to mail their payments.

Payment services give parents options.

With help from Sallie Mae, you can give parents exactly what they want and more – user-friendly payment choices:

On the phone – through an Interactive Voice Response (IVR) system

In person – with Point-of-sale (POS) machines, parents can use a check, credit or debit card

Online – with electronic billing (eBilling), parents gain access to real-time, Web-based account management services, allowing them to receive, review and pay bills online

The K-12 Family Education Loan

Many families want their children to attend private schools so their young minds can flourish. However, the expense of a private education doesn't fit everyone's budget or investment strategy.

With Sallie Mae's K-12 Family Education Loan, parents can cover all the costs and expenses of private school, including tuition. This provides them with more financial flexibility as they take advantage of a top-notch education. Benefits include high loan limits, high approval rates and up to 15 years to repay the loan.

Online storefront

By adding eCommerce functionality like an online shopping cart to your Web site, anyone with Internet access can purchase school merchandise, buy tickets, make alumni donations and more. Best of all, Sallie Mae implements, hosts and supports the site for you.
